

INTRODUCTION

GridsGlobal is a premier provider of Structural Steel Detailing and Engineering Services, delivering precision-driven services to fabricators, erectors, and structural engineers. We are committed to exceeding client expectations through meticulous attention to detail, technical expertise and process-oriented approach.

CORE COMPETENCIES:

> STEEL DETAILING

GridsGlobal specializes in delivering high-quality structural steel detailing services by using the experienced detailers, licensed industry-software and process-driven approach. Our commitment to excellence ensures accurate, efficient and timely project deliverables for our clients.

> CONNECTION DESIGN

GridsGlobal offers precise and reliable connection design services for all states of USA & Canada, led by experienced licensed Professional Engineers (PEs). Our design approach emphasizes simplicity to reduce fabrication and erection complexities, ensuring efficient, cost-effective, and code-compliant solutions.

> ESTIMATION

GridsGlobal provides comprehensive and cost-effective estimation services, including accurate quantity take-offs (Advance Bills), Estimodeling and detailed cost analysis. Our process also includes the preparation of an initial set of RFIs to facilitate effective project planning and optimized material procurement.

> BIM

GridsGlobal enhances construction efficiency through specialized BIM services, offering precise 3D modeling, clash detection and integrated project coordination to ensure accuracy, reduce rework and seamless project execution.

DIFFERENTIATORS

- Less RFI's
- Quick Turnaround
- Multi-Layered Quality Assurance Reviews To Assure Optimal Quality
- BIM Co-ordination Support
- Focus on Automation & Customisation

OUR SOCIAL MEDIA PRESENCE :

SOFTWARE PROFICIENCY

COUNTRY CODE PROFICIENCY

> UNITED STATES - AISC
AISC Associate Member

> CANADIAN - CISC cisc icca

SUCCESSFUL PROJECTS

Rail Station Project

Duration: 1 Month
Tonnage: 120 tons

Hospital Building Project

Duration: 3 Month
Tonnage: 1900 tons

Highschool Building Project

Duration: 6 Month
Tonnage: 2000 tons

Samples can be sent based on requests
